SHAIK MOHAMMAD GOUSE

ABOUT ME

I am Shaik Mohammad Gouse, a B.Tech student in Computer Science Engineering, driven by a passion for solving problems and developing innovative software solutions. Proficient in Java, Python, and Data Structures and Algorithms, I am eager to apply my technical expertise to real-world challenges. With a commitment to continuous learning and growth, I strive to excel in the ever-evolving field of technology.

EDUCATION -

Bhashyam Public School

2019

Chilakaluripet, Andhra Pradesh

✓ *GPA*: 9.8/10

Narayana Junior College

Mar-2021

Vijayawada, Andhra Pradesh

Intermediate Marks secured:883/1000

Kalasalingam Academy Of Research and Education

2025

Bachelor of Technology in Computer Science, Madurai, India

SKILLS

Java

Python

MY SQL

Html, CSS, Java Script

PROJECTS -

- ✓ Automated Image Generation from Text : Automated Image Generation from Text refers to the use of artificial intelligence (AI) models to create images based on textual descriptions. This process leverages advanced machine learning models like Generative Adversarial Networks (GANs) or Transformer-based models.
- Devoloping a Machine learning model for cancer prognosis: Developing a Machine Learning Model for Cancer Prognosis involves building a system that predicts patient outcomes, such as survival rate, disease progression, or treatment response, based on clinical and biomedical data.

CERTIFICATIONS & AWARDS -

✓ Algorithmist24 DSA Competition: Successfully advanced to the 5th and final round of Algorithmist24, a competitive programming event focused on Data Structures and Algorithms, overcoming elimination in each of the five rounds.
